Wound Healing Questionnaire?

If you answered 'Yes' to any of the below questions, then please contact us?

- Is there someone you know with a wound that isn't healing?
- Do you have a wound which has not healed for more than 4 weeks?
- Do you have any sore wound which is affecting your social/personal life?
- Have you observed any skin abnormalities with increasing pain, redness, swelling, change in colour?
- Does the wound have discharge and an odour?

Your Health, Our Priority

Wound Management Program

At Nursing Haven, we offer a comprehensive wound management program designed to promote healing and prevent complications.

We focus on developing tailored care plans that include regular wound assessments, advanced dressing changes, infection prevention, and pain management.

Our team works closely with each client to ensure the best possible outcomes, offering education and support for both the individual and their family.

At Nursing Haven, we are committed to providing expert care that promotes healing and enhances quality of life.
